Art Unit: 1746

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Frankson (U. S. Pat. No. 6,076,538) in view of Bellman(U. S. Pat. No. 5,209,784).

Re claim 1-4, Frankson discloses an apparatus and method for cleaning jewelry, comprising a basket to contain the jewelry where the basket includes grasping means, and exposing the basket to a cleaning liquid that differs from the claims only in the recitation of the basket having a grasping member affixed to the interior thereof.

Bellman is cite disclosing a jewelry clean comprising a basket, where the basket includes a grasping member (13, 18). It therefor would have been obvious to one having ordinary skill in the art to modify the basket of Frankson, to include grasping means as taught by Bellman for the purpose of preventing damage to the jewelry during the cleaning thereof.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Leichner et al., Stohlman, Friedheim, Gross and Hubbard, note the jewelry cleaning means.
